

Christ Church News

The initial survey and Wellington Shire process for subdividing the land at the back of the Church have been completed. The Diocese will now have to complete all the necessary paperwork so the land can be sold. The proceeds of the sale will be used on capital works to bring the building up to scratch.

Mower Race Meeting.

The Mower Race Committee had a meeting with the Lawn Mower Racing Association on the 10th. May 2006.

Their representatives thought the day was great from their perspective and had a few suggestions about the layout of the track for next year. Judging from some of the comments from Committee members the fellows could be in for a few surprises!!!

We will not know the date for next year until after their AGM, which is when their calendar for 2007 will be finalised.
